

**THE PRODUCTS:** Delicate organdie curtains hang in the new windows, allowing natural light to rest upon a beautiful collection of special wares. Pure linen sheets, tea towels and lampshades, made from antique monogrammed linens, line the creamy white shelves of the quaint boutique. Culinary lavender, bath accessories and glassware from the oldest glass manufacturer in France - still in operation today - have been carefully selected for the store. Most of the products are from France, however Smith also carries Canadian beeswax candles and a line of lavender products from Quebec, as well as handmade soaps by Murray.

**FAVOURITES:** Customers are attracted to the Coté Bastide French milled soap, made in the old copper molds in France. Smith's favourites include the orange blossom and rose bath products and all the pure linen products. Find your favourite piece at this beautiful store.
